

HSC study lab subscription note

Dear Parents/Caregivers

Some students' in the Physics class indicated that they were interested in purchasing a subscription with HSC Study Lab. This online tool is available online 24/7 anytime, anywhere and is ideal for students who would like to be ahead of the content taught in class, catch up or just review difficult concepts when they arise.

HSC Study Lab was created at Macquarie University and is based on the NSW syllabus. The courses enhance students' understanding of essential concepts. The courses that they offer are Physics, Biology, Chemistry and Business studies.

The delivery of the Physics course does not require the students to have a HSC Study lab account, however, the subscription is **normally \$99** per course and we can receive a heavily discounted subscription rate through the school. If you have any further questions, please contact Jay Duggan on 02 98361890.

For more information visit <https://hscstudylab.com.au/about>
